

Building the Future OF HEALTH CARE IN JANESVILLE

Project Description

SSM Health Care of Wisconsin (SSMHC/WI) and Dean Health System Inc. (DHS) of Madison, WI, will build a state-of-the-art hospital and clinic on a 50-acre site in Janesville, at the southeast corner of the I-90 and Highway 11 interchange.

St. Mary's Janesville Hospital will be a 50-bed hospital totaling approximately 163,000 square feet. Dean Clinic in Janesville will total approximately 150,000 square feet. The 50-acre site incorporates space for planned growth of both the hospital and the clinic.

The convenient location will allow easy access for patients coming from Janesville and other surrounding communities.

Economic Impact

The hospital and clinic are expected to provide approximately **344 direct jobs** in the community, plus an additional 155 indirect jobs.

This project will be completed without state or federal funding.

Key Features

- **A new choice** for emergency care and hospitalization
- **Convenient location** for residents of Janesville and surrounding communities
- **Comprehensive health care campus**, from clinical services to hospitalization
- **Integrated care**, thanks to 100-year partnership between Dean doctors and St. Mary's Hospital
- **Full range of services**, including prompt emergency care
- **Electronic health record**, ensuring accuracy, patient safety and efficient transfer of information among care providers
- **Community partnership** that dates back to 1918
- **Commitment to supporting a healthy community** through education, outreach and health care service for all people in need
